

Guide to modern American politics

Come to the right decision like other accomplished Americans

Vote Trump

Trump: He's a symbol for masculinity

Trump: He's accomplished, rich, confident, and gets all the women

Trump: And he's tall and handsome

Trump 2024: Make Diddy Parties great again!

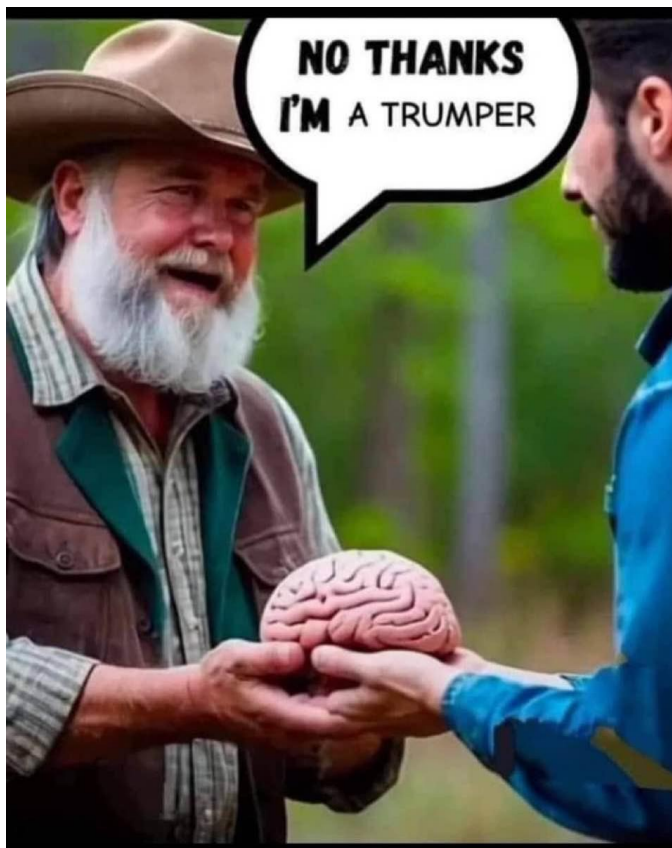

Never forget, the only true religion is Trumpistanity

And don't forget to react right if someone wants to convert you

Never forget: The only true reason to allow abortions is to give lord Trump babies to eat

Back in the 2020 trump vs Biden voting campaign Trump got sick of Corona and there were reports he got cured with stem cells from aborted fetuses

During the 2020 Trump vs. Biden campaign, President Donald Trump contracted COVID-19 and received an experimental antibody treatment developed by Regeneron Pharmaceuticals. This treatment was tested using cells originally derived from fetal tissue from an abortion in the 1970s. The use of these cells was controversial, given the Trump administration's stance against research involving fetal tissue.

Never forget: For Trump to be in the Epstein flight logs is just a sign of manlyhood

Never forget: All the evidence of crimes against Trump was just forged by Leftist Communist Hippies

Educate yourself about lord Trumps scriptures

Learn to deal with Leftists

When woke idiots spout things like:

„Why can't you go to the woman's bathroom when you absolutely look like a woman?“

„Why do people have to decide what clothing to wear based on their chromosomes instead of what matches them well?“

Just respond: „The Republican superhuman congressmen have a rate of about 10% with criminal records of sexual bathroom misconduct, do you think they want to risk falling in a trap when they predate?“

Needs to go to:

MENS BATHROOM

Always remember

Jesus died on the cross for this
